DEDICATED TO DUBAI

Inspired from the morning impression of an awakening Dalie in a cool autumn morning, the magic of fresh water came into Elisabeth Mamolis mind. This magnificent artwork was created in the mountains of Tyrol, near the fashionable winter sport resort Kitzbühel. Clean air, fresh, cool water and the breathtaking, clean environment of the Tyrol mountains are the best basics for the growth of this flower. Watching its perfect symmetric structure and its wonderful colour means a further proof of an existing god. The artwork „morning awakening of a Dalie“ is a special greeting from Austria to Dubai, wishing vitality, joy and happiness.
